

SUBSTANCE USE SERVICES

Available to professionals, pregnant & parenting women, and their families for:

Treatment Referrals

- Screening, information and appropriate referrals for women throughout North Carolina who are pregnant or parenting and using substances.
- Up to date listing of available perinatal and maternal substance abuse treatment beds (residential services) throughout the state.
- Service availability matched with women's needs, such as childcare, location, prenatal care, financial arrangements, transportation, etc.

Technical Support

- Technical assistance to agencies working with pregnant and parenting women on issues related to substance use.
- Gender-specific substance use training for agencies providing services to pregnant and parenting women.

Information

- Education on alcohol, cocaine, marijuana, prescription medications, tobacco, and other drugs as they relate to parenting, preconceptional health, pregnancy, and young children.
